*M*

Magdalena Sylvain originally from New York, now residing in Orlando, FL, is the author of *How I Lied My Way To The Altar And Now I'm Happily Married*. She is a compassionate, enthusiastic motivator, Ministry Leader, and speaker, inspiring Christian women who are frustrated and discouraged just as she was, and believe they will never make it to their altar!

During Magdalena's Journey to find her "Bad Boy Christian" she had to overcome many serious heartbreaks that occur when dating as well as fornicating all while striving to be a good Christian woman. Magdalena found herself alone with no one available that could relate to her trials or encourage her by letting her know that she was still worthy of finding love and getting married.

Magdalena was able to overcome some deceptions that were holding her back using some simple principles she discovered on her journey and was able to attract her "Bad Boy Christian" she thought would never surface within a year. Magdalena is now happily married to Dudley and has two beautiful girls named Laila-Amber and Liya-Angelique.

Magdalena discovered that there were many women struggling with the same issues she had and was able to help, encourage and guide them through her story.

She now uses the same principles to help support and encourage Christian women to overcome their deceptions which will position them to "Lie Their Way To Their Altar! Magdalena's goal is to create a community of women who are striving in ALLwayz to Remain Enlightened about who they truly are and Defeat their Deceptions. ALLwayz REDD

## In ALL Wayz Remain Enlightened & Defeat Deception

# SPEAKER

Magdalina Sylvain is a public speaker addressing the questions Christian women have been asking and are never truly answered that are prevalent in this day and age when it comes to dating. Magdalina used timeless principals taken from the bible and realized that there were some key principals that were missing which she shares in her book.

Women are annoyed, frustrated and tired of hearing the same old excuse why they are not married. They are looking for answers, and advice that are not usually given.

"I read it four times and counting! This book is what every girl needs.

**It's inspiring, edifying, and super REALISTIC.**

*I've never in my life had a woman open up and share information as intimately as Magdalena does in this book. It opened my eyes.*

*It made me realize how the fear of judgement or criticism could inhibit the growth of another.*

*It was straight forward and conveys the message that God wants to get across to us, and does, through this book. What Magdalena says really sticks."*

"This novel is a heartwarming autobiography which is so exciting that, as you are reading it, you want to know what happens next as Magdalena journeys to find love and happiness.

*Her references to the Bible demonstrate how her faith in God and love for Him (both in her mind and in her heart) helped her and sustained her through her most difficult struggles.*

*The novel shows how Magdalena self-reflects on her experiences and then in turn, she tells her audience how they too can use the bible (just as she did) to help them get through any difficult experience."*

"A great and simple read, both heart-wrenching and joyful at the same time.

*Both Magdalena and her book are beautiful and inspiring!*

*The book offers a true testament that the darkest times turn to light with love, patience, and above all—faith. Those looking for love and those who have already found it can truly relate to not only the suffering in the journey of life but also the experiences of love, peace, and eternal happiness!"*
